Sub: Forwarding Minimum Basic Price list ; De-novo registration of Indigenous Core machinery manufacturers/Vendors for manufacturing JDPs under CSAPM- reg.

Sir,

Maximum basic eligible price of Indigenous Core machinery manufacturers/Vendors registered under De-novo registration is annexed at Annexure -I.

Yours faithfully,

R. Ch li

(R.Chandran)
Deputy Director

133	M/s. DCC Print Vision LLP	Curing machine	Flash Curing Machine	Jalapeno Flash Cure	The Jalapeno has been designed to optimize and balance the heat across the printed area during flashing, which minimizes scorching and provides better consistency across different ink and shirt colors. The improved airflow of the Jalapeno provides particularly good results on water base inks. The quartz flash switches activate as the pallets start to move to minimize warm-up delays. Each Copperhead Jalapeno comes with built-in electrical system connectors to easily plug in with a Copperhead Automatic Screen Printing Presses main control functions, so no additional wiring or cables are required. Smooth rolling, locking casters makes moving the flash fast & easy.
